In the top right corner of the homepage, click on **"Signup"** → **Choose "Be A Model"**. On the next screen, there's a registration form to fill out.

- **First Name, Last name:** In these fields it's important that you use your legal name. We cannot pay you without it.

- **Password, Confirm Password:** Be sure to remember and save your password! It helps to write it down.
- **Email Address:** This must be a valid email. It's how we will get in touch with you.

 - **Seller Info:** Brag about yourself here! Tell the people who you are and what sets you apart. Let them know what they can expect to see from your content. Share your fetishes, if you make custom videos, etc. Be creative!

PAYOUTS

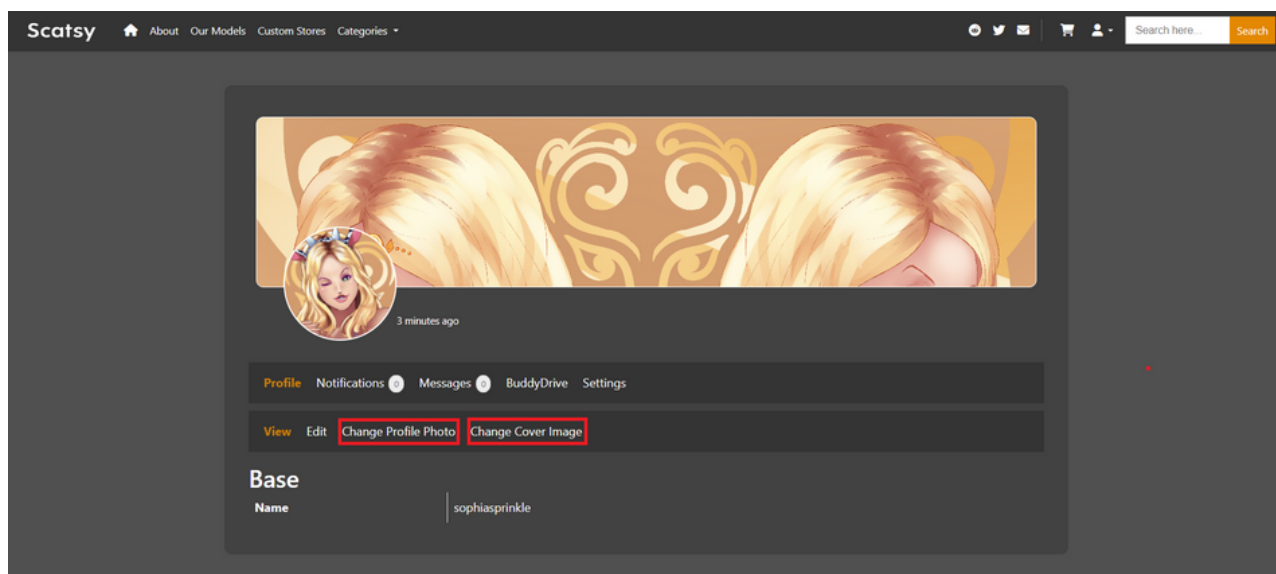

The next questions are about how to receive your payouts. **Accuracy is very important here!**

- **Account Type:** Is it a checking or savings account?
- **Name of Account Holder:** The legal name of the account holder goes here, and this bank account **must** belong to the model.
- **Physical Address on Bank Records:** The account holder's physical address as reflected on bank statements
- **Account Number:** This will be between 10-17 digits.
- **Routing Number:** This number is 9 digits long.
- **Bank Name:** The name of your financial institution.
- **IBAN:** This is only applicable if you are outside the US.
- **BIC/Swift:** This is only applicable if you are outside the US.
- **ID Upload:** We need a photo (or scan) of a current, valid ID that belongs to you. You should upload 3 **clear and legible photos** here: one of the front, the back, and the last one should be a selfie with your ID next to your face. You may also email these files to info@scatsy.com. This must be done for each guest featured in your clips or you risk account termination.

FOLLOWING REGISTRATION APPROVAL

You will receive an email notification update letting you know you're now able to upload clips! If no ID or invalid/expired ID is provided, you will face potential delays in getting your store up and running.

Upon login, you will find a menu on the left-hand side; click on "My Profile". This is where you can upload your profile photo and header image!

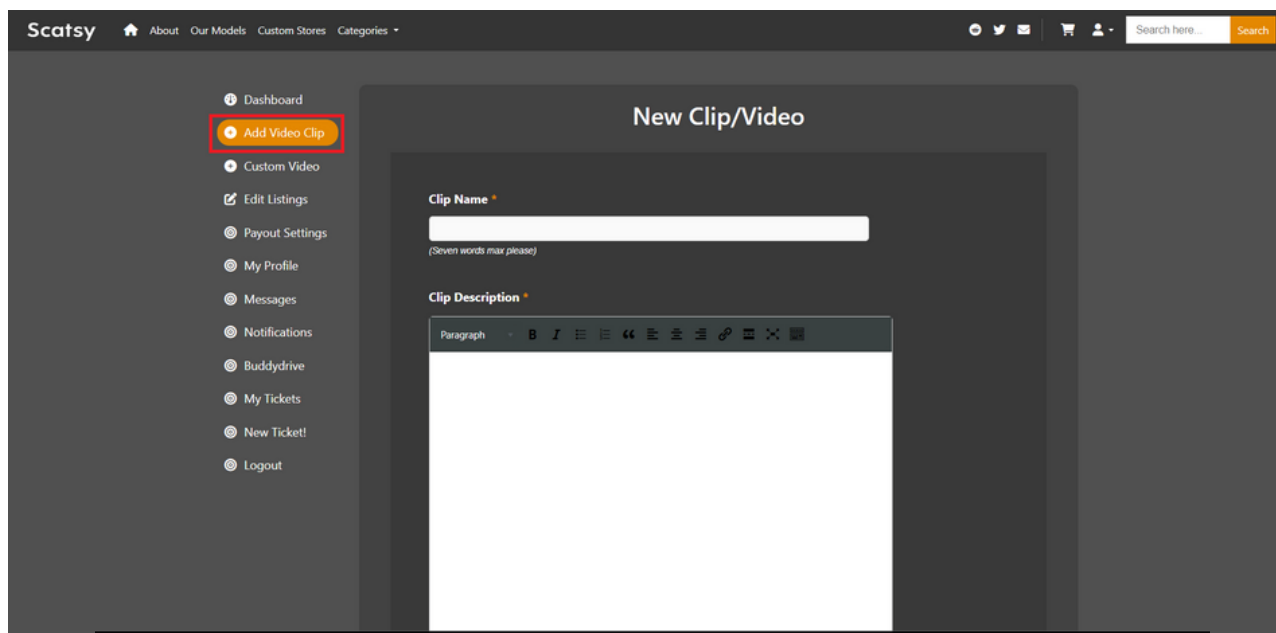

☆ Your profile photo will attract customers and help maintain uniformity among other sites (Twitter, Reddit, etc). Keep it consistent so buyers can recognize your unique image!

UPLOADING YOUR CONTENT

Now that you are registered as a model on Scatsy, you need to populate your store. When you are setting up your store, you can upload as many clips as you need to. However after the initial setup, the daily upload limit is 4 clips.

★ Adding clips to your store regularly (1-2x per week) is a great way to keep a steady flow of buyers coming to your store.

Once you are in the model dashboard, along the left side of the screen, click "**Add Video Clip**".

Clip Name: Choose a name that is creative and unique to your store. Keep it under seven words and not containing any emojis. However, one word names are usually not going to be enough. For example, a video titled "Pooping" is too generic. Think about using keywords that someone might use to search for this video specifically.

☆ **SEO is Search Engine Optimization.** Utilizing SEO successfully by matching keywords in the title and description will optimize visibility in search results.

Clip Description: Describe the video using the keywords you used in the clip name. A good description will prepare the buyer for what they will see in the clip and entice them. Your goal is to paint a picture with your words that will seduce the buyer.

Featured Image: This is the image (or GIF) that will be used to advertise this clip throughout Scatsy. Just click on the icon, choose the file, and click "Open".

Additional Images: These photos will provide the buyer with more information about what is in the video. Again, just click on the icon, choose the file(s), and click "Open".

Categories: In order to be approved, your video must contain at least one of the categories as displayed on the next page. Make sure any, all, and only the appropriate categories pertaining to THIS video have been checked off.

Pricing: Put a value on your work of art! Using the dropdown menu, select an appropriate price.

Upload Clip/Video: Click on the icon, choose the file that you'll be selling, select "Open" and be patient while it uploads to the site.

Click on "**Save and Submit for Publishing**" and you've just uploaded your first clip to Scatsy!

Schedule Video: If you'd like to queue-up your videos in advance, we have the ability to schedule posts! Simply select the correct month, date, and year combination, and submit to publish!

Schedule Video

Schedule your video for future posting. Leave this field empty unless you are scheduling a clip for future publishing.
PRO TIP: Instead of bulk publishing lots of clips in a single day, spread them out to get more sales! 5 clip limit per day.

CUSTOM VIDEO

Create a custom video listing if you want customers to be able to buy a specific and personalized video from you. This is a one-time process!

From the model dashboard, along the left side of the screen, click "**Custom Video**".

☆ This is not a form you would fill out for each custom order. Think of this as a menu for your buyer to choose from.

Custom Video Title: This title should be clear and concise. (An example: Mistress Dee's Custom Videos)

Specific Description: This is where you'll let the customer know the types of customs you love to make and how you price them. Remember not to sell yourself short! This is a custom erotic video; a luxury item. It should be priced accordingly. Here is an example description of a popular custom video belonging to our model **cassiescat** at Scatsy:
